The InterregMed Sustainable Tourism Community: the catalogue of projects outputs and policy targets is out!

The Sustainable Tourism Community, in which UNIMED is a partner, has published its catalogue of projects outputs and policy targets. This catalogue presents the most important outputs of the projects implemented within the Sustainable Tourism Community.

The ultimate goal of this catalogue is to promote the outcomes of the Sustainable Tourism Community in order to assist their transferring to different areas of the Mediterranean and incorporation in tourism-related policies at various spatial scales.

The 50th Anniversary of UNESCO’s Man & Biosphere Programme. Discover how the EduBioMed project contributes to the sustainable connection between people and nature

This year marks the 50th Anniversary of UNESCO’s Man & Biosphere Programme. UNESCO’s Man and the Biosphere Programme was created in 1971 with a vision: promote a sustainable connection between people and nature.

This celebration is meaningful for the EduBioMed project which aims at strengthening, ameliorating and upgrading academic activity at four Moroccan and Lebanese Higher Education Institutions (HEIs) in the context of Mediterranean Biosphere Reserves (BRs), in collaboration and through networking with Biosphere Reserves’ (BR) stakeholders (citizens, visitors, managers and technicians), public administrations and EU Partners.

What did you miss?

**Webinar on Mediterranean Open Education at the Open Education Week 2021**

The UNIMED SubNetwork on eLearning and Open Education has organized a webinar during the Open Education Week on the **1st of March 2021**.

If you have missed it, you can find the recording [here](#).

**The NEXUS MOOC presented and discussed at the Open Education Week**

On the 4th of March, UNIMED and UNED, in collaboration with the European Distance and elearning Network (EDEN), have organized a webinar to present the upcoming MOOC on active digital citizenship by the NEXUS project. The rationale of developing such a MOOC is that, due to recent influx of migrants into Europe, a majority of European universities have a student population who are excluded from broader civic or political participation.

The webinar attracted more than 100 participants. If you have missed it, you can find more information and the recording [here](#).
