

## **YUFE brings Europe to you already- from August 2020!**

**We are extremely happy to announce that, thanks to the hard work of all colleagues and students involved, the first YUFE courses will start in August 2020.**

As a European University Alliance brought to life to, amongst others, enhance connection and cooperation between students, staff, businesses, policy makers and citizens of Europe through mobility, the Covid-19 pandemic has really made us think hard about the way ahead. Thankfully, right from the start, YUFE had already put a big emphasis on blended and online learning and mobility, as we always believed that both would be extremely important to make an international study, working and living experience possible for all rather than developing yet another framework for the happy few. By continuing all of our endeavours virtually through the YUFE Virtual Campus, an online platform that will virtually connect citizens, students, staff and businesses all over Europe, YUFE brings Europe to your home. You can still study or work abroad, despite any restrictions on movement. You can still collaborate across Europe with businesses, staff, students, citizens and policy makers on the YUFE Challenge Teams. You can still help local communities through the YUFE Helpdesk or any other volunteering opportunities.

YUFE brings Europe to you, so you can continue shaping our society and your future.

On 22 July 2020, YUFE will open its virtual doors to see what the YUFE Introduction Offer entails. As the name already reveals, the YUFE Introduction Offer, is a teaser of what YUFE can offer to students and (lifelong) learners. Through the YUFE Introduction Offer, up to 100 students (already registered at a YUFE university as second year bachelor or above) can take a maximum of two online YUFE academic courses and one online YUFE language course.

This sneak peek into YUFE Student Journey can be a stand-alone activity or represent a stepping-stone into the more complete YUFE Diploma Supplement Track. With the YUFE Introduction Offer, you will be one of the very first students at a European University and you will contribute to the pioneering work towards building an international higher education for all!

As of 29 July 2020, visit [www.yufe.eu](http://www.yufe.eu) to apply for this YUFE Introduction Offer before 15 September 2020! Please check the individual courses for the specific deadlines and start dates.

### **About YUFE**

*The Young Universities for the Future of Europe (YUFE) Alliance brings together 10 young research intensive universities – including the University of Cyprus - from as many European countries and four non-academic partners that are committed to creating the leading model of a student centred, non-elitist, open and inclusive European University. In YUFE, students, executives and staff from within and outside academia are working side by side to contribute to a more equitable, diverse and effective education system in Europe and globally. YUFE's vision is to enable students to compile their own curriculum from all courses offered across the ten YUFE universities towards a YUFE Diploma Supplement and, in the future, a true European Degree. In addition, the YUFE Virtual Campus hosts all the members' online course offer. The official language is English but you will be able to learn the language of the host country that you will visit physically or virtually. You will have opportunities to volunteer or follow internships within YUFE. Your diploma will also list your achievements relating to language learning, professional training, job shadowing, community volunteering and all the other opportunities YUFE offers.*
