- 12.15** Discussion
- 13.00** Close

The workshop is designed for teachers of Turkish as a Second or Foreign language. We will explore the issue of 'when to use which Turkish tense', drawing on our experience of teaching and learning Turkish tenses. We will use the time to reflect on how we have taught them so far and why their proper use has challenged learners. The aim of the workshop is to be better prepared to teach the Turkish tenses by the end of the workshop, using methods and new approaches of teaching design.
